Self-driven & self-learner, DevOps engineer coming from system background (1+ year as DevOps 2+ as Sysadmin). Supporting and automating deployments over **Azure** infrastructure. Proficient in **Jenkins**, **Groovy**, AKS – **K8S**, **WAF**, Code Source management – **Bitbucket**, Monitoring – **Prometheus** + **Grafana**.

WORK EXPIRIENCE

DevOps Engineer
Camilyo online Inc.
09/2021 – Present

- **CI**: Jenkins – Dozens of scripts written mostly in Groovy (with some bash + PowerShell), Bitbucket pipelines, working alongside QA teams to constantly modify and improve code tests.
- **CD**: Automated deployments with Jenkins over Azure vm's with auto scaling load balancing configurations + Azure AKS with K8s infrastructure.
- **Monitoring**: Prometheus, Zabbix and **self-written** monitoring system integrated with Azure using API.
- **Security**: Integrating our systems with WAF (Signal Science), inspecting requests to fine tunning our WAF rules + Azure NSG.
- **Support**: Integrating Atlassian Jira and bitbucket with Jenkins scripts for automating ticket systems as much as possible.
- ???Working alongside developers to increase speed of work, automating

System administrator
C.G.L Marketing & Services LTD
11/2019 – 09-2021

- Dozens of bash scripts for centos 7+ ubuntu servers integrating automations for production servers as well for 3rd side hardware & services, (Juniper, FortiGate) Rest APIs, Central management bash application for hundreds of Linux machines
- Dozens of dedicated hosts, hundreds of VMs, NetApp, Fujitsu, Juniper Aggregated switches, HA Firewall.
- Security projects (MAC filtering automations via Centos + juniper cli), building & implementing firewall templates for workers.
- Working alongside company developers providing fast solutions & Automations for speeding up their work.

TECHNICAL SKILLS

Systems Administration
Linux & Windows machines, IIS, Databases: CouchBase + MySQL
PowerShell + Bash scripting

Cloud infrastructure
Azure, Auto Scaling, Load balancing

Security
Managing WAF – Signal Science (SaaS service)

Monitoring
Zabbix, Prometheus Grafana & own code

Extras
Moderate with C#, HTML, CSS

Skills
Total dedication and loyalty.

Education & Certificates

AWS – Certified Solutions Architect, issued 2021
B.A. – Bar-Ilan University (Non tech degree), issued 2019
